

**Writing of Comments
as consequence of discrimination
by Phys. Rev. Lett. and Phys. Rev. B
after the rejection of
LQ10665: "LaCoO₃ - from first principles"**

Consequence of the rejection, of LQ10665: "LaCoO₃ - from first principles" was a number of Comments submitted by Radwanski to Phys. Rev. Lett. and Phys. Rev. B.

Rejection of "LaCoO₃ - from first principles" was 23 March 2006.

LQK1020 - Comment on PRLLaCoO₃ - 28.03.2006 [Acta Physica 2 (2007) 24];

LAK1030 - Comment on PRLLaCoO₃ - 03 Jan 2007 [Acta Physica 5 (2007) 35];

LLK1033 - Comment on PRLNiO - 28.11.2005 [Acta Physica 3 (2007) 26];

LZK1009 - Comment on PRLNiO - 11.12.2006 [Acta Physica 3 (2007) 29];

BVK716 - Comment on PRBNiO - 23.08.2000 [Acta Physica 23-24 (2007) 16];

BTK1007 - Comment on PRBNiO - 6.06.2008 [Acta Physica 23-24 (2007) 28];

BVK714 - Comment on PRBLaCoO₃ - 16.08.2000 [Acta Physica 25 (2008) 15];

BBR734 - Comment on PRBLaCoO₃ - 10.02.1999 [Acta Physica 25 (2007) 21];

LCK1051 - Comment on PRLNiO - 6.03.2009 [Acta Physica 31-32 (2008) 1];

LVK1036 - Comment on PRLNiO - 22.07.2008 [Acta Physica 31-32 (2008) 3] and many others ;

Thus, the first Comment on LaCoO₃ we submit 28.03.2006, i.e. 5 days after rejection of our "LaCoO₃ - from first principles". After the rejection and inability to publish normal paper on LaCoO₃ we have moral rights to write Comment. We are very sorry to authors of the commented papers but we were forced to do it in case of the scientific discrimination in Phys. Rev. Lett. and in Phys. Rev. B.

The rejected Comment LQK1020, discussed the origin on the excited state in LaCoO₃, has been published in Acta Physica 2 (2007) 24. Here it is reprinted as the following article. Next we publish all correspondence related to this Comment.
